

Steel Hydraulic Cylinder Piston Rod CNC Machining Customization Available

Our Product Introduction

for more products please visit us on macrodynecylinder.com

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Flutec
- Certification: ISO9001,Dnv, SGS, BV, ABS, GI
- Minimum Order Quantity: 1 Piece
- Price: \$ 500- \$ 100000
- Packaging Details: Standard Seaworthy Wooden Case
- Delivery Time: 30Days
- Payment Terms: L/C T/T D/P

Product Specification

- Name: Steel Hydraulic Cylinder Piston Rod
- Application: Machinery Accessory
- Standard: GB
- Surface Treatment: Polishing
- HS Code: 8412909090
- Production Type: Batch Production
- Transport Package: Polywood Case
- Machining Method: CNC Machining
- Material: Steel
- Customization: Available
- Highlight: Steel Hydraulic Cylinder Piston Rod, Hydraulic Cylinder Piston Rod CNC Machining, Custom Piston Rod Hydraulic Cylinder

Product Description

China Manufacturer Supply Piston Rod For Hydraulic Cylinder Product Description

Flutec Hydraulics can design any type of custom designed hydraulic cylinders, per the customer's requirements, as long as it fits in our wide manufacturing capabilities, which are:

Bore diameter(I.D.)	Up to 2 500mm / 100inches
External diamter (O.D.)	Up to 3 000mm / 120inches
Length	Up to 20 000mm / 800inches
Turning & Boring	Up to 2500 mm /100 inches external diameter, Up to 20 000mm /800inches in length
Honing (horizontal)	Up to 2500 mm/100 inches inside diameter , Up to 20000mm /800 inches in length
Milling & Drilling	Up to 2000mm /80feet in length , Up to 5060mm /17 feet in height, Up to 2350 /8 feet in width
Grinding	Up to 2000mm / 80inches diameter , Up to 20 000mm /800inches in length
Polishing	Up to 2000mm / 80inches diameter, Up to 24000mm /80feet in length
Welding Welding)	TIG/GTAW (Gas Tungsten Arc Welding), MID/GMAW(Gas Metal Arc Welding), SAW(Submerged Arc

Test Bench

Flutec Hydraulics received an ISO 17025 Laboratory Certification certified by the world recognized International Laboratory Accreditation Cooperation. Putting them to the forefront among cylinder producers.

Honing Machine

Flutec has high efficient and accurate Honing machine facilities to provide machining from 20mm to 1500mm in diameter and over 7000mm in length. These advanced machines also supply to the customers who need this service particularly.

Various kinds of Large Lathe

Flutec is large lathes can manufacture various kinds of cylinders because they have maximum swiveling radius from standard size to 1500mm and over 10M in length.

General Kinds of Lathe

Flutec utilizes different kinds of precise lathe equipment to undertake all kinds of lathe processing works with several fixtures and tools to process the spare parts of cylinder.

Grinding Machine

Flutec applies various kinds of grinding machines which can grind the different sizes of cylinder rod from standard diameter up to 1500mm and its length can be over 10m.

Machining Center

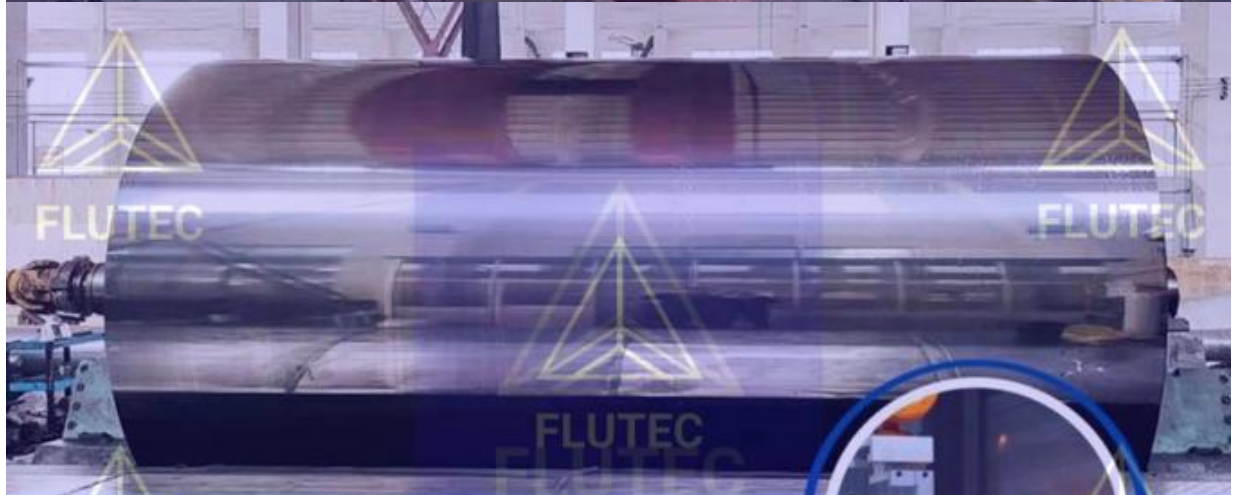

To produce special shape of cylinder and machinery, Flutec owns #3-50-#6 centralized machining equipment with wide range of processing technique and accuracy rate.

CNC lathe

Flutec has wide range size of CNC lathe, from #2 to #7. With such high technical equipment, Flutec is doubtless to mass-produce various kinds of components of cylinder with top quality.

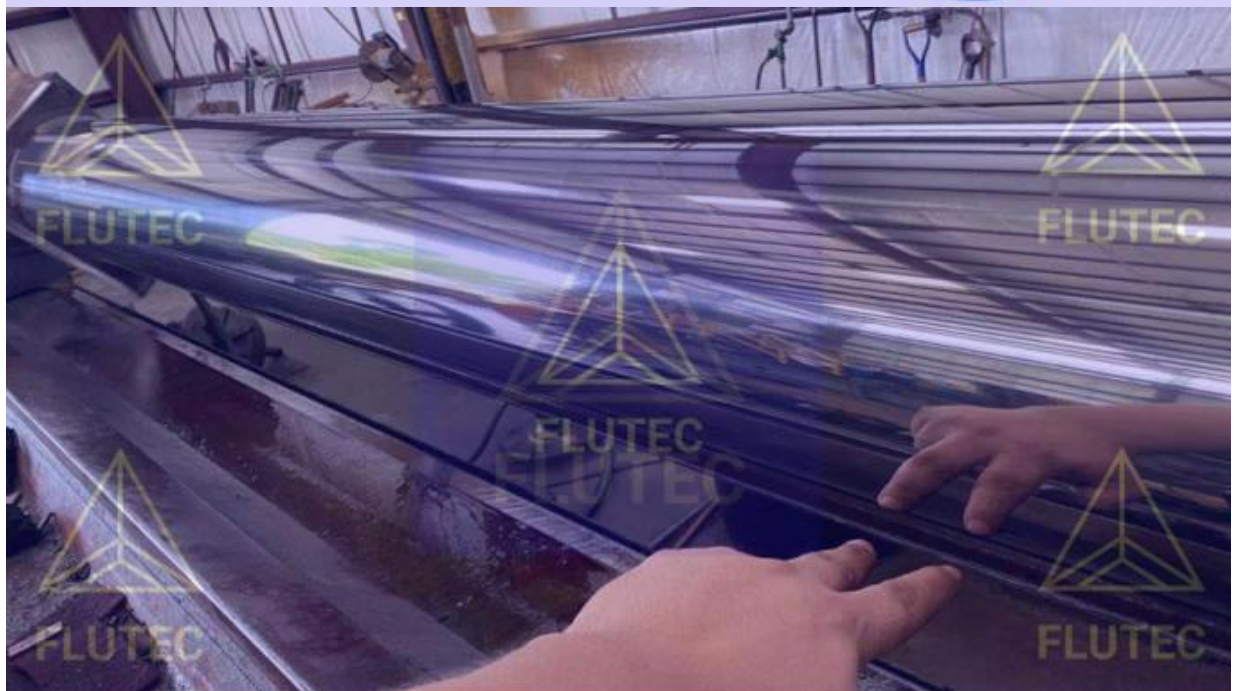

Tungsten Carbide HVOF

FLUTEC

Excellent thermal spraying process
